

All **sango**'s high performance and powerful technologies within an ultra-compact Retail PC

With compact dimensions, this POS retail PC is safe, reliable, long-lasting and easy to maintain, at home in both "front office" environments (cash desk) and in the "back office" (where it can be used as a server for example).

Connected to a monitor such as the **sango touchscreen**, it functions as the nerve centre of an ultra-high performance EPOS modular system.

The **sango box** will adapt to the technology requirements of all users: 4 types of processors are available (including a **fanless i5** for boosted performance), as well as a range of connection options.

It offers a glossy polycarbonate finish, featuring, in option, mix & match range of **sango**'s seven modular colours (*Black is the standard colour (aluminium cover) ; White, Red, Blue, Orange, Grey and Cassis are optional (polycarbonate modular covers).*)

- + 4 different types of processors available (among which a fanless i5 version)
- + Multiple connection ports
- + INTEL HD Graphics 4000 core
- + Flash disk (SSD)
- + Fanless PC (no ventilation) with low power consumption
- + High quality materials and detailed finishes
- + Associated peripherals available (**sango touchscreen**, etc)
- + 7 colours (Black in standard, in option : White, Red, Blue, Orange, Grey, Cassis)
